HEIRS WANTED

Missing persons are often sought throughout the world. Many people are today living in comparative poverty who are really rich, but do not know it. You may be one of them. See our Index Book, "Missing Heirs and Next of Kin," containing carefully authenticated lists of missing persons, and in some cases, their names have been advertised for, here and abroad. The Index of Missing Heirs we offer, is the largest and most complete index of names which have appeared in American, Canadian, English, Scotch, Irish, Australian, New Zealand, German, French, Indian, Colonial, and other newspapers, inserted by lawyers, physicians, dentists, etc. It contains lists of English and Irish Courts of Chancery and unclaimed dividends lists of Bank of England. Very few names remain to be added to the list. Send \$1.00 (one dollar) at once for book.

DOING WHAT YOU LIKE

Extraordinary ways of making a living come to light now and then. You probably recall seeing Jay O. Gandy, who originated the idea of the incorporation of a man's name in store windows. He once offered \$20,000.00 anyone who could make his laugh on the job.

A Jersey City specialist is specializing in the art of handling 5000 a week. He is part of a big watch repairing organization.

Around large bakeries you find employees who are expert in examining for bad bread.

We doubt if there is a single unique business man that hasn't a special way of getting along in the world, the way from trivial details to phenomenal wealth.

Considering the vast assortment of odd occupations, there is little reason for anyone to do work he does not like. There are many opportunities for different routine occupations for a man to choose among, and in addition there are hundreds of specialties.

The trouble is, no matter what a man selects as a means of earning a living, he is likely to find it monotonous. Most of us are temperamentally vagabonds, yearning to fit into the world, and to be free.

The more you study the wide assortment of ways of making money, the more you realize that the best way is to learn in this world and how little of the total any man can master in his lifetime. There is a great, almost infinite labyrinth. Each man has his corridor, and he dies, without more than a vague realization of what took place outside of his own "line."

WOMEN IN SPORTS

Fifty years ago, the woman who struggled through more than one game of cards was considered masculine.

Today, she is a spunk-waisted, trim, clear-skinned, pale, tennis, golf, football, cricket, basketball and hockey. They swim, hunt, fish and shoot.

One or two generations ago, the lady of leisure was a spin-waisted, plump, clear-skinned, stout, oppressed and excessive modesty and shyness were the chief traits to make her attractive.

Today, sports are replaced that Sunday girl with a girdle of muscle.

Women's athletic clubs, the dirtiest bundles of sportswear but graceful and trim, are the new ideal.

Today, the best thing sport has done for women is to give her something to occupy her spare time.

One or two generations ago, the lady of leisure was a spin-waisted, plump, clear-skinned, stout, oppressed and excessive modesty and shyness were the chief traits to make her attractive.

Today, sports came into woman's life, these old ladies were interested in tennis, golf, tennis and fitness around aimlessly in a frantic desire to keep up with the times.

Sport has provided a wholesome and healthy relief from boredom. It is the secret to the divorce and other marital products of idleness in social life today.

HOMEMAKERS' CORNER

Angel Marcella

In the season just past we have become well acquainted with Christmas "Angels" who took baskets of food to the poor, to help them over the winter months. Now here is a new kind of angel to make glad the folks at home.

The auto industry is moving into a two-car-per-family era. Sales market widen.

The standard of living keeps on going higher in many ways. More higher silk is being worn now by Canadian girls than ever before. In raw pounds it is almost twice as much as before the war.

The most striking indication of increasing luxury is, doubtless, in erecting a home to have a large garden and a swimming pool. But the tendency now is for each family to need the entire garage for a car.

ProductionThe Preliminary estimate of the
Provincial Department of Agriculture
on the total value of agricultural pro-
ducts, including all branches of the
industry, for the year 1924 is placedat \$22,449,459.70 as compared with
\$22,311,172 in 1923. This estimate is subject to revision
as late returns are received and
revisions in detail made. Total production in field crops
was much less than last year, the
prior receipts were much higher
than the total value of the preliminary
estimate of wheat production
is placed in round figures at
\$10,000,000. This may be revised
when later returns are re-
ceived, there has been an increase in
the value of a steady trade with
Japan in beet cattle.Growth in Dairy Industry
The total amount of creamery
butter manufactured in the creameries
of Alberta increased from approximately
to 17,500,000 lbs., as compared with
17,300,000 lbs., the last year. There
was an increase of 1,200,000 lbs. as
compared with the previous year.The total amount of butter graded
as export quality was 16,000,000 lbs.
with just over 2,000,000 lbs. in 1923.
All of this butter is sold outside
of Canada, mostly to the Orient.
There has been a steady
increase in the quality of both cream
and butter, a result of the cream
grading system.

The grain situation is a difficult one

whenever it may be required and all

efforts must be made to keep the

highest pitch in the movement of

the grain.

Weeks before the crop is baled

the grain is moved under way

which has an im-

mediate effect on the

value of grain to the

markets of the world,

and this is the gradual concen-

tration of grain at the

strategic points on the western lines,

so that it may be rapid distribution wherever they are

needed.

ment of Agriculture, following re-
view of the test results, a preliminary
estimate of Japanese fish is being made
for ocean space for a similar shipment
in the near future. This indicates
that the production in field cropswas much less than last year, the
prior receipts were much higher
than the total value of the preliminary
estimate of wheat production

is placed in round figures at

\$10,000,000. This may be re-
vised when later returns are re-ceived, there has been an increase in
the value of a steady trade with

Japan in beet cattle.

Provincial Seed Fair

The annual Alberta seed fair will
take place in the tent at the Macleod
Fairgrounds on January 20 to 23, and entries are now being received.
Following urgent requests from pro-
ducers, the entries have been extended
from January 6 to January 18, all of

which time the exhibition will be held

at the same place.

HOME FOR ELDERLY CHRISTIAN SCIENTISTS

The Mother Church of Christian Science, The First Church of Christ, Scientist, in Boston, Massachusetts, is taking steps to establish a permanent home for elderly persons whose length of service in the Cause of Christian Science, good works and other circumstances make special reason for generous provision by Christian Scientists. This institution will be financed and supported by voluntary contribution of Christian Science churches, societies, associations and individuals. The treasurer of The Mother Church has already received contributions for this purpose.

The new building will be located near Concord, New Hampshire, where Mrs. Edith Dimock, a member of The First Church of Christ, Scientist, has lived for many years. It will be called "Christian Science Pleasant Home." New Home six years ago The Christian Science Benevolent Foundation was established at Chestnut Hill, Massachusetts, but it is a temporary resort for persons in need of medical care or, where the same is not available, will furnish a permanent residence, to the extent of capacity, to those who serve in the Cause of Christian Science has been long and faithful. Miss Smith, formerly of the Edmonton Mission, is now in Edmonton. This young lady will shortly be married to a former Macleod Farmer, who now resides in the Pincher Creek District.

Mrs. G. D. (Rev.) Armstrong, recently married, the mistress of the small cottage in the mountains above Macleod, stopped to the top of the backstairs.

"Louise," she called to the maid waiting "have you any copper down there?"

"Yes, ma'am two," faltered Louise, "they are both my cousins, I mean."

It's easy to pick out the waiters. They are the ones that look composed and civilized.

Science can tell you everything except the psychological moment to buy new tires.

NOT THAT KIND

How about for some small change, the mistress of the small cottage in the mountains above Macleod, stopped to the top of the backstairs.

"Louise," she called to the maid waiting "have you any copper down there?"

"Yes, ma'am two," faltered Louise, "they are both my cousins, I mean."

A HAPPY NEW YEAR

Last week we advertised bargains of specialties to be disposed of in standard lines. We have now sold out all or any available space. It was a haphazard conglomeration—now the printer thought he would improve on the word used by substituting another expressive word, namely—

"HELLAVOTOLOGOUS"

Any way we meant regardless of artistic effects—a little of everything on display.

Our annual stock-taking is in full swing, and it gets on the world.

WINTER UNDERWEAR for Ladies, Men and Children will be sold at COST.

BOOTS AND SHOES will be slashed with a price-cutting knife. You want to cut out odd sizes and styles to make room for new stock.

CLOTHING FOR MEN AND BOYS will have the same pruning process.

It is only by your co-operation in buying these bargains that we shall be enabled to have a fresh, changing stock and give you the advantage of new styles and creative inventions of the manufacturers.

NEXT WEEK we will find time to give you a season why the new stock is better than old stock ever, and sacrificing well-worn goods, must of necessity get 100% to offset less sales and loss of patronage.
